

COVID CAN'T STOP GOOD™

BUILDING BLOCKS

Our neighbors are a collection of families that are the building blocks of our community and together we are the foundation portraying the strength and resilience we have to survive any crisis.

COLOR a CUBE

Let's create a visual representation of what makes up the bedrock of our region - the people and families. Show your appreciation for the frontline workers, draw an image of how you feel during this crisis, or paint a picture of our future - anything goes. We will display them at the Y as a reminder of how we endured a challenging time together. Once you completed your block email it back to ascully@meadowlandsymca.org
